

May 14, 1973

(Start Belt #16)

Clerk reading. There are committee amendments.

SENATOR MARVEL: You will note that the--well let me explain this bill just briefly if I may and then this will bring into the explanation the committee amendment. I think this is the easiest way to approach this. 583 basically is the Governor's bill to add additional funds to the Health Department. We're talking about the addition of roughly 265 to \$280,000 to the Health Department. Now that's the first thing you need. All these sections have to do basically with getting more money to run the Health Department. Now, included in the, in this total is on page 10, which is the last section which would set up a mechanism to get money from mobile home operations and it would set up a certain amount of inspectors who would go around as near as we could figure out, about once a year and would charge about \$50 per inspection and would raise roughly \$7100. Now the mobile home people came in and indicated that, well they came in with a, with a whole new operating procedure that would require more inspectors, would inspect oftener and would raise more money but this money would not perform the services that this bill required and that's to raise money for the Health Department. So the committee amendments would strike Section 13. In other words, there would be no money raised in the area of mobile homes. This is a new operation and the committee thought after, that was the afternoon we met from noon to about 6 in the evening, the committee thought that it was better to consider an entirely new supervision of the mobile home operation and so the motion is to strike Section 13 and I so move that the committee amendment to 583 be adopted.

PRESIDENT: Any further discussion of the committee amendment. All those in favor of adopting committee amendment please say aye. Those opposed say no. Amendment is adopted.

SENATOR MARVEL: Now I'd like to explain the rest of this. The--this increases the inspection fees in a number of areas. It requires, for instance, if to give you an example, if you turn to page 2, Section 2, that laboratory examinations will require additional fees. There is a section that, that requires inspection of swimming pools which will require additional fees and then on page 6, it increases in the Department, or the subdivision of Vital Statistics, it increases the fee from 2 to \$3 and, instead of the money going into the general fund and then being reappropriated as it is now, the money would go directly into a Bureau of Vital Statistics cash fund. These are the major areas. Well, let's see, the one on swimming pools, inspections on page 9, so I would say that the basic function now of 583 would be to raise approximately \$270,000 additional money to run the Health Department so I move that 283 be advanced to E&R initial. 5--what did I say? I'm sorry, 583.

PRESIDENT: 583. Any further discussion? Question is shall 583 then be advanced from general file to E&R initial as amended? All those in favor vote aye. All those opposed vote no. Have you all voted? Clerk will record.

CLERK: 27 ayes, no nays, 22 not voting.

PRESIDENT: Bill is advanced.

CLERK: Mr. President, I have a request, unanimous consent to be excused this P.M., signed Senator Fellman.

PRESIDENT: Are there objections? Hearing none so ordered.

CLERK: Mr. President, I move we recess until 1:00 P.M. Signed Senator Syas.

PRESIDENT: Motion is to recess until 1:00--is there any further business to come before the body?
